

Starting a New Vedanta Class based on Drg Drsya Viveka

**Here is an opportunity to learn how Vedanta can help us in our lives.
Especially in these uncertain times. Video streamed on YouTube**

An excellent text of only 46 verses, Drg Drsya Viveka - *Inquiry into the nature of the Seer and the Seen* is known for providing a mirror to self, our life and our future. It covers the entire range of Vedanta. One can relate to its vision from the very first verse. Also, it is not necessary to have any previous background in Vedanta to understand.

Says Sri Kapoor: This text is a favorite of mine; I was instantly drawn to it when taught by Swami Dayanandaji in 1977 in Santa Cruz, and I have taught it many times since then. In 2008, Swami Veditatmanandaji taught it in a retreat. These discourses were transcribed by AVC students and later turned into a popular 266-page book, which will be available and serve as a reference. I look forward to teaching you.
